

UK Robotic HPB Cadaveric Dissection Course

Newcastle Surgical Training Centre

15-16 July 2021

FACULTY

Professor Steven White
Newcastle upon Tyne Hospitals

Additional faculty to be
confirmed

This course is designed to facilitate the surgeon with didactic and hands on cadaveric training experience. Conducted by a faculty of experienced surgeons, this is

an intensive two day course of lectures, debate, exchange and practical hands on experience on HPB procedures using an XI Da Vinci Robot.

OBJECTIVES

Full access to the Da Vinci Robot – with hands on procedures on fresh frozen cadavers and full access to the clinical lectures.

Become familiar with the function and operation of the da Vinci Surgical System.

Appreciate the ergonomics of the da Vinci Surgical system robot and the available robotic instrumentation

Understand the selection process for patient position, da Vinci surgical team position and robotic surgical approaches.

Learn robotic tissue dissection techniques using monopolar energy
