

National Head and Neck Course

Wednesday 3rd May – Friday 5th May 2023

Aims and Objectives

This course has been designed with maximum hands on operating time, so that every delegate will be able to perform every procedure under direct supervision, in a unique intensive series of practical surgical cadaveric workshops.

In addition, faculty will provide didactic lectures and cased based discussions.

About the NSTC

Combining didactic teaching and practical procedures with leading edge technology, we offer first rate cadaveric training and continuing professional development in a purpose built facility. We also carry out pioneering research into new techniques and ensuring that you receive the very best surgical training available in the UK, both for today and in the future.

Course Director

Mrs Hannah Fox
