

National K-Wiring Course

Newcastle Surgical Training Centre

7th March 2024

This course is designed for trainees in Hand surgery (Orthopaedics and Plastics) who have little or no experience in K-wiring. Learn the sure and proper way of K-wiring and you will not need to do an ORIF ever again, saving you operating time and money. This is a hands-on course, first with dry bones and then with cadaveric hands. Understand and Practice K-wiring without the pressure of time.

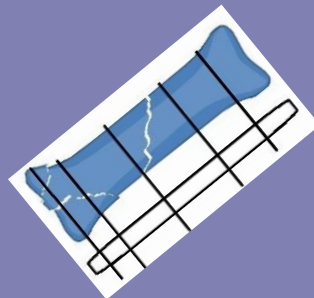

COURSE DIRECTOR:
Mr Maxford Coutinho
Hand Surgeon

Special Features

- ❑ One day intensive course with a good balance of lectures and practice opportunity.
- ❑ Special k-wiring techniques
- ❑ Practice with dry bones and then cadaveric hands under fluoroscopy

TARGET AUDIENCE:
Trainees in Plastic and Orthopaedics

Topics Covered

- ❑ Technique of k-wiring
- ❑ Complications
- ❑ Understand why k-wires get infected or loose and how to reduce complications.
- ❑ Advantages and disadvantages of K-wiring
